

SINGLE SOURCE
PFRI DECK
REMEDIATION EXPERTS

Deck Restoration Incorporated (DRI), the nationwide premier decking contractor whose focus is making the deck remediation of the Beazer Phenolic Foam Roofing Insulation (PFRI) projects simple and affordable. **DRI** has been involved with the deck remediation process since the discovery of the PFRI product and the severity of corrosion this product has created. **DRI** has developed and produced the “standard” by which contractors are trying to duplicate. We **guarantee** all work performed per the terms and conditions of the Sebago Class Action Settlement.

DRI has worked with and earned the respect of building owners, and reputable licensed roofing contractors throughout the USA. Doing so has evolved DRI to become a single source company on PFRI projects.

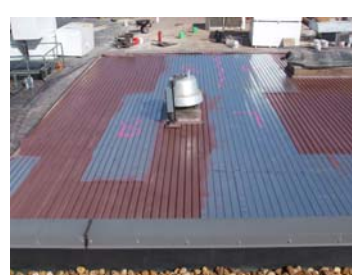

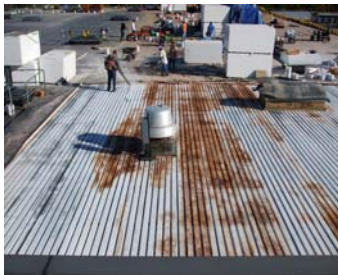

Increased services include: Construction Management, prepare re-roof specifications, obtaining roof replacement pricing, lawsuit compliance, deck remediation, and interior protection. All of this done for the unit costs outlined in your settlement.

Assuring there is no cost for our service!!!

Quality, commitment, and experience has lead to our proven track record of over 3 million square feet of deck remediation with 100% lawsuit compliance.

Please call immediately to see how DRI can simplify your PFRI remediation work.
